★ WHAT IS TAEKWONDO?

Taekwondo literally means the art of the hand and foot. It is a Korean martial art, which although having roots in the ancient Orient, was developed to its present day from the middle of the last century. Inaugurated in 1955 by its founder, Major General Choi Hong Hi, it is one of the most effective forms of unarmed combat. Taekwondo incorporates many facets, such as self defence, flexibility, discipline, confidence and fitness building.

★ TAEKWONDO IS EQUALLY SUITABLE FOR MEN, WOMEN AND CHILDREN

The training is structured to cover all aspects of the martial art, and whatever your present past-time or occupation, Taekwondo has something to offer you - you might particularly enjoy the self defence, or the fitness and sport, perhaps the challenge of working towards your Black Belt. Some parents like their children to practise Taekwondo for the exercise and to improve their confidence and discipline. Whatever the reason, Taekwondo is an enjoyable and rewarding hobby, and for some it becomes a lifelong pursuit of self-improvement and development. Beginners are always welcome.
